Submitting Bids and Awarding of Service

Enbridge Gas, at its sole discretion, reserves the right to reject any and all proposals received, terminate the Open Season, or modify or extend the Open Season or related documents.

All capacity requests that meet the respective service parameters during this Open Season will be awarded as per Enbridge Gas’ Allocation Procedures in Section XVI of the Enbridge Gas M12 tariff [General Terms and Conditions](#), starting with those bids with the highest economic value. If the economic values of two or more independent bids are equal, then service shall be allocated on a pro-rata basis. The economic value shall be based on the net present value which shall be calculated based on the proposed per unit rate and the proposed term of the contract and without regard to the proposed contract demand.

Any suggested conditions precedent proposed by the bidder should be clearly articulated and attached to the bid form and will be considered during the capacity allocation process. Successful bidders will be expected to enter into a definitive **Precedent Agreement** with Enbridge Gas within 30 days of awarding the Open Season capacity.

A **Financial Backstopping Agreement** may also be required. The need for such an agreement will be determined by the facilities required to provide the transportation service requested by the bidder. Contact your [account manager](#) to discuss the Financial Backstopping Agreement in more detail. Any party wishing to submit a bid for M12 Firm Transportation service should complete, sign and return the appropriate M12 Firm Transportation Bid Form by email to EnbridgeGas_S&TSales@enbridge.com.

If you have any questions regarding this Open Season, please feel free to contact your Storage and Transportation Account Manager:

Jennifer Woodall	(519) 436-5273
Ginny Hawken	(519) 436-5230

About the Enbridge Gas Dawn Hub

The Enbridge Gas Dawn Hub is the largest integrated natural gas storage facility in Canada and one of the largest in North America. It offers customers, such as power generators, distribution and pipeline companies and energy marketers, an important link in the movement of natural gas from key supply basins to markets in central Canada and the northeast U.S.

- A working storage capacity of approximately 280 Bcf.
- Bi-directional service.
- Connectivity to markets of up to 9 Bcf/d.
- Takeaway capacity of more than 8 Bcf/d,
- Daily demand at Dawn from markets in Ontario, Quebec, the U.S. Midwest and the U.S. Northeast.
- Serving markets of over 9.9 million consumers in eastern Canada and the northeast U.S.
- Interconnects with several major pipelines including Vector, Great Lakes, Panhandle, Bluewater, MichCon, ANR and TransCanada at Kirkwall and at Parkway.
- Additional interconnects with National Fuel, Empire, Dominion, and Tennessee via Kirkwall.
