C) Pricing (Cont'd)

Dehydration Service:

	Monthly Demand Charge (applied to daily contract demand) <u>Rate/GJ</u>	Commodity Charge <u>Price/GJ</u>
Dehydration (4) (5)	\$0.039	\$0.003

Authorized Overrun:

The following overrun prices are applied to any quantities injected or withdrawn in excess of the Contract parameters. Overrun will be authorized at Union's sole discretion.

	Price for gas injected and withdrawn from Storage <u>Price/GJ</u>	Commodity Charges		
		If Union supplies fuel Commodity Charge <u>Price/GJ</u>	If Shipper supplies fuel Fuel Ratio <u>%</u>	Commodity Charge <u>Price/GJ</u>
a) Injection and Withdrawal	Negotiated	Negotiated	1.03%	\$0.041
b) Dehydration Service		\$0.004		\$0.004

Unauthorized Overrun:

i) Overrun of Maximum Storage Balance

The price payable shall be \$60/GJ on the Excess Storage Balance during periods of storage injection curtailments, as identified on the Operational Status section of www.uniongas.com. The price payable shall be \$6/GJ on the Excess Storage Balance during all other periods.

For any Extension Period, the price payable shall be \$0.63/GJ times the quantity in the Excess Storage Balance as of the date of such extension.

Union, during any Extension Period, may upon forty-eight (48) hours verbal notice to Shipper (to be followed in writing) take possession of Shipper's gas in storage (which shall be immediately forfeited to Union without further recourse).

These prices will be charged in addition to the normal injection and withdrawal charges.

ii) Drafted Storage Balance

The price payable shall be \$60/GJ on the Drafted Storage Balance during periods of storage withdrawal curtailments, as identified on the Operational Status section of www.uniongas.com.

The price payable shall be \$6/GJ on the Drafted Storage Balance during all other periods.

For any Extension Period, the price payable shall be \$0.63/GJ times the quantity in the Drafted Storage Balance as of the date of such extension.

<logo removed>

(C) Pricing (Cont'd)

Union, during any Extension Period, may upon forty-eight (48) hours verbal notice to Shipper (to be followed in writing), replace the outstanding gas at Shipper's expense (which will include all costs related to replacing such gas, plus a charge equal to 25% of the incremental cost of the gas purchased for each unit so replaced).

These prices will be charged in addition to the normal injection and withdrawal charges.

iii) Overrun of Firm Injections

The price payable shall be \$60/GJ on the injections in excess of the Maximum Daily Injection Demand during periods of storage injection curtailments, as identified on the Operational Status section of www.uniongas.com. The price payable shall be \$6/GJ on the injections in excess of the Maximum Daily Injection Demand during all other periods.

iv) Overrun of Firm Withdrawals

The price payable shall be \$60/GJ on the withdrawals in excess of the Maximum Daily Withdrawal Demand during periods of storage withdrawal curtailments, as identified on the Operational Status section of www.uniongas.com. The price payable shall be \$6/GJ on the withdrawals in excess of the Maximum Daily Withdrawal Demand during all other periods.

Notes for Section (C) Rates:

- (1) In negotiating the price to be charged for storage services, the matters that are to be considered include:
 - i) the minimum amount of storage service to which a Shipper is willing to commit;
 - ii) whether the Shipper is contracting for firm or interruptible service during Union's peak or non-peak periods;
 - iii) utilization of facilities;
 - iv) market pricing, competition; and
 - v) term.
- (2) This price may be negotiated in any combination of monthly demand charge, injection and/or withdrawal charge, take-or-pay charge and fuel in kind.
- (3) Also applicable to Union's F24-S Service (firm all-day storage), Upstream Pipeline Balancing Service and Downstream Pipeline Balancing Service.
- (4) Monthly dehydration demand charges are only applicable to third party storage providers directly connected to Union's system that have elected to use Union's dehydration service.
- (5) Dehydration commodity charges are applicable as per the Shipper's contract.

(D) Terms of Service

General Terms and Conditions applicable to this service schedule shall be in accordance with the attached Schedule "A".

(E) Nominations

Nominations under this service schedule shall be in accordance with the attached Schedule "B".
